TT crimping press

- Available either in semi-automatic (for bench-top use) configuration or in full automatic (integrated into a cut and strip machine) configuration.
- Very compact and light, its spheroidal cast iron, one-piece structure offers the highest rigidity.
- 40mm Standard stroke (others available upon request).
- Can be used with all mini-style applicators with standard T-coupling.
- CFA can be fixed as an option.
- 135.8mm (+/-) .02mm shut height.
- Standard safety cover has a "door opening" style by means of a latch; a state of art certified security switch assures the conformity to the norms and international laws.
