JOG FUNCTION
Included

BBC MANAGEMENT UNIT
Included

SCXX MANAGEMENT UNIT
Optional

DISPLAY
HMI 4.3" colors

CELL FORCE
CDA 10 Crimp Force Monitor

- ★ The P080i is the evolution of our traditional 8 Ton press. Equipped with an inverter, this press offers improved monitoring procedures such as setup, work speed, and jog functions.
- ★ The machine can be interfaced with co-bot for automated application.
- ★ Our i-style presses are specifically designed to incorporate advanced data-driven processes, enabling further optimization of its functionality.
